<sup>1</sup> "Graduates Available for Employment" means the number of graduates minus the number of graduates unavailable for employment. Graduates unavailable for employment means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

<sup>2</sup> "Graduates Employed in the Field" means graduates who beginning within six months after a student completes the applicable educational program are gainfully employed, whose employment has been reported, and for whom the institution has documented verification of employment. For occupations for which the state requires passing an examination, the six month period begins after the announcement of the examination results for the first examination available after a student completes an applicable educational program.

<sup>3</sup> Salary is as reported by the student or employer. Not all graduates reported salary.

You may request a list of employment positions determined to be within the field for which a student received education and training, and a list of the objective sources of information used to substantiate the salary disclosures above, from the school Placement Office.
